Acceptable Artwork Needed for Print/Embroidery:

We primarily use Adobe Illustrator and Photoshop in our art department.

Adobe Illustrator vector art (any version)
- All type to be converted into outlines
- PMS colors specified (or we will pick what is close for your approval)
- Size and imprint location
- Placed images to be embedded or supplied as a high resolution (300dpi) file.

Photo Real Images:
- High Resolution (300dpi) to be made in actual size requested to be printed
- Type to be rasterized.
- JPG,TIF,PNG,EPS,AI or PSD are all accepted file types and should be at the best resolution possible and preferred to be to the size of the print.

Art charges will be applied to your order if files are unusable and not print ready.

If we do not receive artwork within above guidelines, we will need to recreate it which may cause a delay in production.

Thank you,
